

Ravindra Priyadarshi

MCA graduate with hands-on experience in Django web development and IT support. Skilled in Python, desktop and help-desk support, hardware and software troubleshooting, and web application development. Proven track record of building a Django-based static site generator and contributing to group projects like a Spotify clone. Strong knowledge of MS Office, Windows administration, and design tools such as Figma and Adobe Photoshop. Seeking opportunities to leverage development and IT support expertise in a growth-oriented organisation.
